Impact Analysis of industrial training: 4 marks

- 1.The students gained practical knowledge.
- 2.The students developed communication skills.
3. The students developed their leadership skill by working in team.

Students feedback on initiative: 4 marks

It was an exceptional learning experience that supported the student's interest in learning and pursuing career in various field. Students spend innumerable memorable hours with prominent experts throughout our internship. Researching, planning, designing and executing in various industries achieving the vision and objectives of the brands they promoted.

The guidance and patience have truly proved to be invaluable throughout these months. By choosing as one of the few lucky interns to receive tutelage, showed confidence in the students' abilities, and grateful for that. Students sincerely appreciate the opportunity and words of encouragement that helped to succeed and grow as a professional.
