

MOOKAMBIGAI COLLEGE OF ENGINEERING

Srinivasa Nagar, Kalamavur, Pudukkottai-Dist 622502

**DEPARTMENT OF
COMPUTER SCIENCE AND ENGINEERING**

< QUBIT >

VOLUME - III

2022 - 2023

Founded in 1985, Mookambigai College of Engineering is an offspring of the Sri Mariamman Educational, Health and Charitable Trust, Woraiyur, Tiruchirappalli. The Management consists of a team of progressive minded and benevolent Trustees who has at the helm the far-sighted and enthusiastic Founder Chairman Late Thiru S. Subramaniam. Srinivasa Polytechnic is also run by the Trust in the same campus.

Since its inception, Mookambigai College of Engineering has been treading a path of steady and sustained growth and achievements. Today this institution is an epitome of excellence bearing testimony to the high educational standards with a bi-dimensional perspective viz. dedicated student faculty involvement and a continuous industry-institution- society interaction.

The Institution is affiliated to Anna University, Chennai. It is located on a sprawling 200 acres of land in the tranquil and serene village of Kalamavur on Trichy-Pudukkottai highway, 20 kms from Trichy Airport which is the geographical centre of Tamil Nadu.

Presently, the alumni of our college exceeding 13500 are present around the world in various countries, who offer inspiring testimony to the credentials of their “Alma Mater”.

We have dedicated ourselves for the cause of generating talented and competent Engineers with commendable ethical and moral values, who can contribute to our country’s sustained growth towards becoming one of the Developed Nations of the World.

**Late Thiru S. Subramaniam.
FOUNDER CHAIRMAN**

VISION OF INSTITUTE

- **To be an institution of excellence committed to quality engineering education and research towards producing socially responsible citizens.**

MISSION OF INSTITUTE

- **To impart quality technical education in producing competent engineers by providing a conducive learning environment.**
- **To build a high quality human resource capacity with focus on professionalism and dedication.**
- **To inculcate ethical values by adopting holistic teaching methodologies.**
- **To instill innovative thinking and entrepreneurial traits by collaborating with industry and academia.**

VISION OF DEPARTMENT

- **To produce competent software engineers with ethical values for the betterment of society.**

MISSION OF DEPARTMENT

- **To foster quality education in computer science by facilitating learner centric environment.**
- **To improve problem solving skills, leadership qualities, team spirit with ethical responsibilities by practicing on latest technological. developments**
- **To enhance the students' employability by inking MoU with industries.**
- **To motivate the students to bring out their talents by improving participation in various activities.**

PROGRAM EDUCATIONAL OBJECTIVES OF CSE DEPARTMENT

- **Serve professionally while engaging in government firms, industries or being entrepreneurs.**
- **Work effectively in different fields with a core expertise in analysis, design, networking, security and development using advanced tools.**
- **Exhibit the leadership in diverse fields with fulfilment and ethical values while working with interdisciplinary teams**
- **Develop professionally by independent lifelong learning and have an attitude to adapt to emerging technologies**

PROGRAM SPECIFIC OUTCOMES OF CSE DEPARTMENT

- **To analyze, design and implement complex Engineering problems by applying fundamental concepts of Computer Science and Engineering.**
- **To apply software Engineering principles and practices for developing quality software for scientific and business applications**
- **To adapt with emerging programming languages and various components of a system which will be competent to address contemporary issues**

EDUCATIONAL OBJECTIVES OF CSE DEPARTMENT

- **To prepare students for developing excellence in Professional Career, Research & Development and in Higher Education by having deep understanding of Mathematics, Computing and Engineering principles.**
- **To enable students to meet real life challenges, designing appropriate computing systems that are technically sound, economically feasible and socially acceptable in current time changing environment by using modern tools.**
- **To encourage, motivate and prepare Learner's for Lifelong-learning.**
- **To develop the ability among students to scrutinize the social and human context of computing as it impacts individuals, team work, organizations and society including ethical, legal, security and global policy issues.**
- **To train students with innovative ideas, skills with best learning, teaching and leadership qualities.**

EDUCATIONAL OBJECTIVES OF CSE DEPARTMENT

- **An ability to analyze the local and global impact of computing on individuals, organizations, and society.**
- **An understanding of professional, ethical, legal, security and social issues and responsibilities.**
- **An ability to function effectively individually and on teams, including diverse and multidisciplinary, to accomplish a common goal.**
- **An ability to communicate effectively for knowledge, convincing methodologies formulated with a range of audiences.**
- **An ability to work and learn independently and an appreciation of the importance of continuing education and professional growth over the course of a lifetime.**
- **An understanding of engineering and management principles and apply these to manage projects technically and economically**

EXECUTIVE COUNCIL OF INSTITUTE

**MRS. R.UMA
CHAIRPERSON**

Ever since the founder Chairman Thiru S. Subramaniam went to his eternal abode in 2016, his daughter Tmt. R. Uma took up this herculean responsibility of the administration of the institution. She adorns the chair of her beloved father with the same spirit and mind, following his footprints. She is committed to safe guard the nodal legacy that her father had left behind.

EXECUTIVE COUNCIL OF INSTITUTE

MR. D.RAVI
CHIEF EXECUTIVE

The Chief Executive Thiru D. Ravi is not only the life partner of the Chairperson Tmt. R. Uma, but also the sole person who shoulders her in administering the institution with the spirit of the Chairman. From administration to academics, every activity is overseen by him. He is in constant consultation with the Director and the Principal to ensure the development of the institution and progress in academics.

EXECUTIVE COUNCIL OF INSTITUTE

Dr.Prof. P.VASUDEVAN
DIRECTOR

Dr. R.ELANGOAN
PRINCIPAL

DR.M.G.SOMASUNDARA
MOORTHY
ADMINISTRATIVE OFFICER

Dr.Prof. P.VASUDEVAN
DIRECTOR

Dear STUDENTS,

MOOKAMBIGAI COLLEGE OF ENGINEERING, having a glorious past of about 36 years after independence, has been the foremost institution of higher technical education in the southern region. This institution of higher learning has immensely contributed to the nation building by providing intellect talent possessing latest analytical, design, practical and managerial skills.

Our students have infiltrated into all sectors be it government, private or public to serve the country in various capacities. Our competent faculty and the State of The Art infrastructure together with compulsory 6 months internship programme at an industry of repute help them in developing their overall personality to meet the challenges at global level and come out with the optimum solutions.

It is my strong belief that given an opportunity, the students of this great temple of learning will prove an asset to the recruiting organisations. We extend a warm invitation to the organisations/companies looking for budding engineers to visit our serene campus for a possible human resource par excellence. We are also looking for mutual association and collaboration with the industry at various other levels, for example, guest lectureships, workshops, laboratory mentorships, joint R & D projects etc., and would highly appreciate industry participation in this endeavour.

Regards,

DR.PROF. P.VASUDEVAN
DIRECTOR

Dr. VALARMATHI NACHIYAPPAN,
HEAD OF THE DEPARTMENT.

Dear STUDENTS,

Welcome to Department of Computer Science & Engineering, MCE.

The Department of Computer Science and Engineering welcomes you to be a part of the thriving computer science community and become visionaries and change makers of the future. Department of CSE came into existence in the year 1991 with an intake of 60 and at present, the department has an intake of 180. Our distinguished faculty members ensure a wide range of diverse learning experiences ranging from the fundamentals of Computer Science, Core Courses, Programming, Emerging Technologies like Big Data Analytics, Data Mining, IoT, AI, Machine Learning, Cyber Security, Block-chain, Professional Ethics, Research Methodologies and Open-Source Technologies—to name just a few.

The Department is proud to have a strong-alumni-network, many of whom hold influential positions in the Information Technology industry and academia, at both, national and international levels. We look forward to having talented students, researchers, academicians, and professionals join us and augment the healthy and competitive learning atmosphere we have on campus! Also CSE department is having MoUs with some of the best organizations and trying to strengthen them further

Regards,

DR.,VALARMATHI NACHIYAPPAN

MACHINE LEARNING

-Jegan

Final year CSE

In the modern era, the rapid advancement of technology has propelled machine learning to the forefront of innovation across various industries. From personalized recommendation systems to autonomous vehicles, the applications of machine learning are seemingly boundless. However, as the capabilities of these algorithms expand, so too do the ethical and practical considerations surrounding their use.

Machine learning, a subset of artificial intelligence, empowers computers to learn from data without explicit programming. Through the analysis of patterns and algorithms, machines can make predictions, identify trends, and even make decisions autonomously. This ability has revolutionized numerous fields, including healthcare, finance, manufacturing, and entertainment.

One of the most profound impacts of machine learning lies in its ability to transform vast amounts of data into actionable insights. Healthcare providers can leverage machine learning to diagnose diseases earlier, predict patient outcomes, and personalize treatment plans based on individual characteristics. Financial institutions utilize algorithms to detect fraud, assess credit risk, and optimize investment strategies with unprecedented precision.

Moreover, machine learning algorithms are instrumental in enhancing user experiences across digital platforms. From streaming services recommending personalized content to e-commerce platforms offering tailored product suggestions, these algorithms continuously refine their recommendations based on user interactions, preferences, and feedback.

BIG DATA ANALYTICS

-Harshia

Third year CSE

Big data analytics refers to the process of examining large and varied datasets to uncover hidden patterns, correlations, and other valuable insights. Unlike traditional data analysis methods, which often rely on sampling or structured data, big data analytics deals with unstructured and semi-structured data from diverse sources, including social media, sensors, mobile devices, and more.

Key Components of Big Data Analytics:

1. Data Collection: The first step in big data analytics involves collecting vast amounts of data from multiple sources. This can include structured data from databases, as well as unstructured data from social media, emails, videos, and other sources.

2. Data Storage: Once collected, the data needs to be stored in a way that allows for easy access and analysis. Many organizations use data lakes or distributed storage systems to store large volumes of data cost-effectively.

3. Data Processing: Raw data is often noisy and requires cleaning and preprocessing before analysis. Data processing techniques such as filtering, sorting, and aggregation are used to prepare the data for analysis.

4. Data Analysis: This is the heart of big data analytics, where advanced algorithms and techniques are applied to extract insights from the data. Machine learning, statistical analysis, data mining, and predictive modeling are some of the methods used for analysis.

Big data analytics has emerged as a game-changer for businesses and organizations looking to gain actionable insights from the ever-growing volume of digital data. By leveraging advanced analytics techniques and technologies, organizations can unlock valuable insights

BLOCKCHAIN TECHNOLOGY

-Atchayasri

Final year CSE

Blockchain technology has emerged as a revolutionary concept with the potential to transform various industries, ranging from finance to supply chain management. At its core, blockchain is a decentralized and distributed ledger system that securely records transactions across a network of computers

Challenges and Considerations:

While blockchain technology holds immense potential, it also faces several challenges, including scalability, interoperability, and regulatory concerns. Additionally, the energy consumption associated with certain blockchain networks, particularly proof-of-work-based systems like Bitcoin, has raised environmental concerns.

In conclusion, blockchain technology has the potential to revolutionize numerous industries by providing secure, transparent, and decentralized solutions. As the technology continues to evolve and mature, it will be essential for businesses and organizations to carefully consider its applications and address the associated challenges.

Applications of Blockchain:

1. Cryptocurrencies: The most well-known application of blockchain is cryptocurrency, such as Bitcoin and Ethereum. These digital currencies use blockchain technology to facilitate secure and decentralized peer-to-peer transactions.

2. Supply Chain Management

Blockchain can be used to track the movement of goods along the supply chain, providing transparency and traceability. This helps to prevent counterfeiting, reduce fraud, and improve efficiency.

PLACEMENT RECORDS (2021-2022)

CAYml 2021 -22

| S.No | Name of the Student | Enrolment No. | Employee Name | Appointment No. |
|------|---------------------------|---------------|---------------------------------|-----------------|

STUDENTS ACHEIVMENTS

Our students have won **Overall winner trophy**
in M.A.M College of Engineering
(Dept of CSE)

Mehar Jabeen & Abith Hussain have won **First Prize** in Paper Presentation at M.A.M College of Engineering(Dept of IT)

Jothiiswariya has won **Second Prize** in Paper Presentation at M.A.M College of Engineering (Dept of IT)

Lydia Joice has won Second Prize in Debugging at M.A.M College of Engineering (Dept of IT)

Our students have Participated in various events at M.A.M College of Engineering (Dept of IT)

STUDENTS ACHEIVMENTS

Our students have participated and own **Overall winner trophy** in M.A.M College of Engineering (Dept of IT)

Martin & Abinesh have won **First Prize** in **Project Expo** at **Indra Ganesan College of Engineering**.

Deepthi & Rajalakshmi have won **First Prize** in **Paper Presentation** at **Indra Ganesan College of Engineering**.

Our students have won Overall Trophy in Bishop Heber College BootFest.

Vemberasan & Kalai have won First Prize in UI&UX design at Anna University BIT campus, Trichy.

Vemberasan has won **First Prize** in **UI&UX** design at **Mount Zion College of Engineering**.

Sugasriya has won **First Prize** in **Essay Writing** in **Sathiyasolai** .

Our students have won Various Prices in Alagappa University, Karaikudi

Our students have participated in various events at Kings College of Engineering.

Our students have participated and own various prizes at National College of Engineering

Our students have won in various events at Jamal Mohamed College
