CEO/CTO DataMoo AI | Founder MatVik Solutions Pvt Ltd | Founder of Faceviz Product

As the CEO/CTO of DataMoo AI, I lead a team of talented platform developers who leverage machine learning, AI, and data science technologies and frameworks to create innovative solutions for our clients. We specialize in domains such as fintech, healthcare, insurance tech, and industry 4.0, where we apply our design thinking approach and deep domain knowledge to solve complex business problems and generate insights from data.

I am also the founder of MatVik Solutions, a company that provides rich consulting and product development services in new technologies such as computer vision, data streaming, and deep learning. I have multiple certifications from Microsoft, ITIL, and Coursera, and I have completed several nanodegrees from Udacity in AI-related fields. With over 17 years of industry experience, I am passionate about empowering our customers and partners with data-driven decision making and cutting-edge technology. Now I founder of AI product it's called "FACEVIZ".
